

PowerHealth partners Blue Crystal for Oracle database services

15th October 2015

PowerHealth Solutions has partnered with database management company Blue Crystal Solutions to provide complementary Oracle database services to customers using the PowerBilling & Revenue Collection enterprise billing system.

The partnership benefits the PowerHealth Solutions customer base by providing strong Oracle database management services to support their inhouse IT team, especially during the implementation of the PowerBilling & Revenue Collection (PBRC) system.

The PBRC enterprise billing system is in high demand throughout Australia and internationally as it uniquely meets the complex requirements of healthcare billing and successfully automates many of the manual tasks required by other more generic billing systems.

PowerHealth Solutions (PHS) has a large customer base with nearly 1,000 hospital departments worldwide. The company has demonstrated expertise in delivering quality, large scale implementations through the use of developed project management and governance skills – across the United Kingdom, Ireland, Hong Kong, New Zealand, the Middle East and the United States.

Blue Crystal Solutions is ideally positioned to provide Oracle database management and administrative services to PowerHealth Solutions customers, with extensive experience with the complex environments for large organisations and. - Blue Crystal Managing Director Vito Rinaldi said, “We are proud to be partnered with PowerHealth Solutions. Their systems are highly configurable, rapidly installed and are well suited for integration with Oracle installations.”

PowerHealth Solutions Managing Director Patrick Power said, “Vito and his team provide excellent service. They are great to work with as they share our philosophy of providing high uptime, cost effective solutions for our customers.”
